### **Reviews**

*The publication is fantastic and great. It can be rally exciting throgh reading period of time. I am just very happy to inform you that this is the greatest publication i actually have read in my very own daily life and could be he very best ebook for at any time.*

*(Prof. Alvis Wuckert)*

**BUNDLE: RAVITCH: QUALITATIVE RESEARCH + CRESWELL: 30 ESSENTIAL SKILLS FOR THE QUALITATIVE RESEARCHER (HARDBACK)****DOWNLOAD**

Sage Publications, Inc, United States, 2015. Hardback. Book Condition: New. 229 x 185 mm. Language: English . Brand New Book. We offer these texts bundled together at a discount for your students. Ravitch: Qualitative Research Focused on developing the theoretical, methodological, and conceptual knowledge needed to engage in rigorous, valid, and respectful qualitative research, this introductory text presents the field of qualitative research in a unique and meaningful way. The book helps readers understand what the authors call criticality in qualitative research by communicating the foundations and processes of qualitative research with clarity and simplicity while still capturing its complexity. Packed with real-life examples of questions, issues, and situations that stem from the authors and their students research, the book humanizes the qualitative research endeavor, illustrates the types of scenarios that arise, and emphasizes the importance of actively considering paradigmatic values throughout every stage of the research process. In every chapter, the authors illustrate the qualitative research process as decidedly ideological, political, and subjective using themes of criticality, reflexivity, collaboration, and rigor. Creswell: 30 Essential Skills for the Qualitative Researcher 30 Essential Skills for the Qualitative Researcher fills a gap in introductory literature on qualitative inquiry by providing practical how-to information for beginning researchers in the social, behavioral, and health sciences. Author John W. Creswell draws on years of teaching, writing, and conducting his own projects to offer effective techniques and procedures with many applied examples from research design, qualitative inquiry, and mixed methods. Creswell defines what a skill is, and acknowledges that while there may be more than 30 that an individual will use and perfect, the skills presented in this book are crucial for a new qualitative researcher starting a qualitative project.
