By J W a Young

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Appleton Arithmetics The present volume of the Appleton Arithmetics covers the work usually taught in the fifth and the sixth grade, beginning with a brief review of the work of the primary grades, and then providing a course that covers the essentials of elementary arithmetic. Like the other Books, this text is for the pupil s use, ans as such possesses certain well-defined features. Important definitions, principles, and processes are introduced inductively by means of a series of questions and illustrations labeled Preparatory. A natural and easy approach to the subject is thus provided for the pupil, without, however, placing hard and fast limitations on the teacher s method. When a principle or process has been developed and stated, it is put into practice through easy Oral Exercises which are followed by Written Exercises, of gradually increasing difficulty and including applications that require somewhat extended calculations. In addition to giving proper attention to the culture value peculiar to the exact reasoning of school mathematics, this book fully recognizes the utility of arithmetic. The problem...
